is a short summary of these three different soul groups, known
as Indigo, Crystal and Rainbow.. In my understanding and
experience of Rainbow of The Soul Indigo soul, they can be
both adults and young people. They also seem to be a group
that most often chooses to become vegan or vegetarian our of
compassion AND health reasons, and though they may not choose
to be activists like many Indigos might, they still feel
strongly about living in specific ways that are less harmful
to others and the planet.
