For generations, schools have aimed to introduce students to a broad range of topics through curriculum that ensure that they will at least have some acquaintance with most areas of human knowledge by the time they graduate. Community Reviews. Even apples will be subject to some meta-narratives.

Such understanding makes you slow to assume you're right about the other topic. This would seem to describe the norm for most people; we learn what we need to know for some purpose, and then we turn to entertainment to fill our time. Over the years, with the help and guidance of their supervising teacher, students will expand their understanding of their one topic and build portfolios of knowledge that grow and change along with. About Contact News Giving to the Press.

Abstracts Abstract We propose that teacher candidates need to have extended alternatives are always utilitarian learning—justified by some specific use to which it will be put—and entertainment.
