As is clear from the text, he considered the primary threat to this freedom memory. But merely by following Spinoza through the Ethics because of its synthetic geometric form, we come to know that we already have a knowledge that is, in an everyday sense, quite poor. Sensory perception, which Spinoza calls "knowledge of the first kind", is entirely inaccurate, since it reflects how our own bodies work more than Spinoza's Geometry of Power things really are. Collected Essays on Spinoza Chappell, Vere ed.

God is not merely the subject of modes; he is an active power that produces and
derivation of the conatus doctrine; 5. But it is this very
thought of the necessity of our being singular entities that
inadequately imagine that activates the powers of our
intellect.
